Carleton's Opera Company.

Whiting Allen, business manager of W. T. Carleton's famous comic opera company was in the city yesterday arranging for the appearance of the great company at the Opera House Wednesday evening of next week, Nov. 5th. Mr. Allen was astounded at the rumor which was started in some mysterious manner that his company would not come here and that Jeride Winston was not a member of it. "The rumor is simply absurd," said Mr. Allen. "As the business affairs of the company are in my charge no one could possibly know my intentions better than myself, and unless some unforeseen act of Providence should interfere both the company and Miss Winston will be here as announced."

What Does It Mean.

Elko Free Press The following letter was found in the letter box at Carlin on the 16th of the present month:

"POSTMASTER—Sir: Will you please warn all the ranchers that have wives and children on the lonely places, for they will surely be killed unless there some men around. Oh, do be sure to warn them. It is true; a word to the wise is enough. Take them to the settlements till December. Have warned all along the road. 'Tis true; oh, be warned in time.' The letter is written on a sheet of white blank paper, and the letters are all capitals."

The latest French submarine boat—the Goubet—is cast in one piece of bronze, is 18 feet long by 6 feet in diameter, and can carry 4 men. A heavy mass of lead on the keel insures stability, and in emergency can be detached by the turn of a screw inside the shell. The boat is driven by electricity, but the currents are so powerful as to effect the compass and make submarine steering uncertain. Oxygen is drawn as needed from tubes into which a supply for many hours is compressed.

FREE AGAIN.

Two Convicts Chisel Through the Walls and Escape.

George W. Lewis and August Richards escaped from the Nevada State Penitentiary Monday night, it is supposed between the hours of 10 p. m. and midnight.

Lewis has been the boss of the blacksmith shop, and through this means secured tools with which to free himself.

Richards assisted him in the work, and together they made a hole sufficiently large to allow a man to pass quite easily through, in the iron grating of their cell, both being confined together, and nothing then confronted them but the stone wall probably two feet thick. A good sized stone was worked loose with little trouble, allowing them to get out on the roof sloping down from the second story of the main prison.

Immediately above them was the walk of the guard, who makes the round every half hour, but they seemed to have calculated things to a nicety, and evaded him. No one knows what course they took after leaving the roof, and up to a late hour no further news had been heard of them.

Lewis is the man who was committed to the prison from Elko county several years ago for murdering an Italian, and is the son of Mrs. Bates, who has so many times appeared before the Board of Pardons in her efforts to free her son. His sentence was for life and should he ever be captured it is quite probable that the entire unit will be dealt out to him.

Richards is also from Elko but the crime burglary. His time was ten years.

They were kind enough to leave a bag of tools but not their address.

WHAT ON EARTH—Is the reason people will not, cannot, or do not see any difference in cheap trousers put up by Cheap John houses or irresponsible parties at enormous profits, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at equal price?
